## **Nancy Dodson**

Nancy Dodson is a seasoned healthcare executive with a strong record of success in running hospital operations, leading strategic initiatives, creating comprehensive quality programs, and building service lines.

She has worked in major academic medical centers, as well as community and behavioral health hospitals ranging in size from 150-1100 beds, in both for-profit and not-for-profit organizations. She has lead multiple strategic initiatives, the latest creating a cardiac interventional program, a robotics surgical program, and a telemedicine network. Additionally she has overseen multiple construction and expansion projects.

Nancy's commitment to efficiency and quality are demonstrated in the hospitals in which she has most recently worked, having been named in successive years as Thompson Reuters Top 100 Hospitals and Joint Commission Top Performing Hospitals.

### **Areas of Expertise**

- **Improving efficiency in hospital operations**
- **Improving labor management**
- **Reducing emergency room wait times**
- **Expanding operating room capacity and improving efficiency**
- **Reducing length of stay and wait time**
- **Improving ancillary department operations and processes**
- **Emergency preparedness/disaster recovery**

Nancy received her Bachelor of Science degree in Health Information Management from the University of Louisiana at Lafayette, Louisiana and her Masters in Business Administration with Healthcare Administration emphasis from Regis University in Denver, Colorado. She is a member of the American College of Healthcare Executives and has held certifications in Quality, Risk Management and Privacy.
